FOR IMMEDIATE RELEASE

ConocoPhillips Specialty Products, Inc. Names New General Manager

(HOUSTON) – March 28, 2005 - Ann M. Oglesby has been named General Manager of ConocoPhillips Specialty Products, Inc. (CSPI).

Oglesby comes to CSPI from ConocoPhillips' Emerging Technology group, where she served as manager. A native of Arkansas, Oglesby has been with ConocoPhillips for four years. Prior to joining the company, she was employed with ExxonMobil. She holds a bachelor of science degree in chemical engineering from Oklahoma State University.

"I'm thrilled to be a part of CSPI," said Oglesby. "CSPI holds values close to my own – dedication to the most advanced technology, top-notch quality of products and services and an organizational focus on the customer. This, coupled with the opportunity to work with such a diverse and talented group of people, made the move to CSPI seamless."

Oglesby will be responsible for the management of the group over all facets, including research and development, engineering, sales, marketing, logistics, quality, finance and safety.

ConocoPhillips Specialty Products Inc., a wholly owned subsidiary of ConocoPhillips Company, is the global leader in the science of drag reduction. CSPI specializes in maximizing the flow potential of pipelines, increasing operational flexibility, throughput capacity, and substantially increasing bottom line profit potentials. CSPI developed its pioneering technology in 1979. Since then, it has continued to develop its innovative Flow Improver Solutions, working with customers in more than 30 countries, treating more than 12 million barrels of hydrocarbon liquids a day. CSPI offers a range of LiquidPower™ Flow Improvers for crude, refined products and water soluble applications. LiquidPower Flow Improvers work by easing pipeline flow turbulence by reducing frictional and energy loss, enabling companies to strategically reduce pipeline operating costs.
