SAFETY DATA SHEET

1. Identification

Product identifier RP™ II Flow Improver

Other means of identification None.

Recommended use Flow Improver.

Recommended restrictions Other uses are not recommended unless an assessment is completed, prior to commencement of

that use, which demonstrates that the use will be controlled.

Manufacturer/Importer/Supplier/Distributor information

Manufacturer LiquidPower Specialty Products Inc.

Address 2103 CityWest Blvd.

Suite 1400

Houston, TX 77042

Telephone 1.713.339.8703 or 1.800.897.2774

SDS@LiquidPower.com e-mail Website www.LiquidPower.com +1 703.527.3887

+1 800.424.9300

2. Hazard(s) identification

Emergency telephone

Flammable liquids Category 4 **Physical hazards**

Health hazards Serious eye damage/eye irritation Category 2A

Environmental hazards Hazardous to the aquatic environment, acute Category 3

hazard

Hazardous to the aquatic environment, Category 3

long-term hazard

OSHA defined hazards Not classified.

Label elements

Signal word Warning

Combustible liquid. Causes serious eye irritation. Harmful to aquatic life with long lasting effects. **Hazard statement**

Precautionary statement

Prevention Keep away from flames and hot surfaces. No smoking. Wash thoroughly after handling. Avoid

release to the environment. Wear protective gloves/protective clothing/eye protection/face

protection.

If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and Response

easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention. In case of fire:

Use alcohol-resistant foam, carbon dioxide, dry powder or water fog for extinction.

Store in a well-ventilated place. Keep cool. Storage

Disposal Dispose of contents/container in accordance with local/regional/national/international regulations.

Hazard(s) not otherwise

classified (HNOC)

None known.

Supplemental information None known.

3. Composition/information on ingredients

Mixtures

RP™ II Flow Improver 1/8

937376 Version #: 10 Revision date: 20-June-2023 Issue date: 12-May-2017

Chemical name	CAS number	%
Alcohols, C7-9-iso-, C8-rich	68526-83-0	35 - 45
Propane -1,2 -diol	57-55-6	15 - 20
Octan-1-ol	111-87-5	2 - 10

^{*}Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

Composition comments

All concentrations are in percent by weight. Components not listed are either non-hazardous or are

below reportable limits.

4. First-aid measures

Inhalation Move to fresh air. Call a physician if symptoms develop or persist.

Skin contact Wash off with soap and water. Get medical attention if irritation develops and persists.

Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if Eye contact

present and easy to do. Continue rinsing. Get medical attention if irritation develops and persists.

Ingestion Rinse mouth. Get medical attention if symptoms occur.

Most important

symptoms/effects, acute and delayed

Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred

vision.

Indication of immediate medical attention and special treatment needed

Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.

General information Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

5. Fire-fighting measures

Suitable extinguishing media

Unsuitable extinguishing media

Water fog. Alcohol resistant foam. Dry chemical powder. Carbon dioxide (CO2).

Do not use water jet as an extinguisher, as this will spread the fire.

Specific hazards arising from the chemical

Special protective equipment

The product is combustible, and heating may generate vapors which may form explosive vapor/air mixtures. During fire, gases hazardous to health may be formed.

Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

and precautions for firefighters

Fire fighting equipment/instructions

Specific methods

In case of fire and/or explosion do not breathe fumes. Move containers from fire area if you can do so without risk.

Use standard firefighting procedures and consider the hazards of other involved materials.

General fire hazards Combustible liquid.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Wear appropriate protective equipment and clothing during clean-up. Do not touch damaged

Methods and materials for containment and cleaning up Use water spray to reduce vapors or divert vapor cloud drift. Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Keep combustibles (wood, paper, oil, etc.) away from spilled material. Prevent product from entering drains

Environmental precautions

Avoid release to the environment. Inform appropriate managerial or supervisory personnel of all environmental releases. Prevent further leakage or spillage if safe to do so. Avoid discharge into drains, water courses or onto the ground.

RP™ II Flow Improver SDS US

7. Handling and storage

Precautions for safe handling Keep away from open flames, hot surfaces and sources of ignition. When using do not smoke.

Avoid contact with eyes, skin, and clothing. Avoid prolonged exposure. Provide adequate

ventilation. Wear appropriate personal protective equipment. Avoid release to th

Conditions for safe storage, including any incompatibilities Keep away from heat, sparks and open flame. Store in a cool, dry place out of direct sunlight. Keep containers tightly closed in a dry, cool and well-ventilated place. Store away from incompatible materials (see Section 10 of the SDS).

8. Exposure controls/personal protection

Occupational exposure limits

US. OARS. Workplace Environmental Exposure Level (WEEL) Guide

Components	Туре	Value	Form
Octan-1-ol (CAS 111-87-5)	TWA	265 mg/m3	
		50 ppm	
Propane -1,2 -diol (CAS 57-55-6)	TWA	10 mg/m3	Aerosol.

Biological limit values

No biological exposure limits noted for the ingredient(s).

Appropriate engineering controls

Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to

maintain airborne levels below recommended exposure limits. If expos

Individual protection measures, such as personal protective equipment

Wear safety glasses with side shields (or goggles). Wear a face shield if there is a risk of Eye/face protection

splashing.

Skin protection

Hand protection Wear appropriate chemical resistant gloves. Nitrile, butyl rubber or Viton (fluoroelastomers) gloves

are recommended.

Skin protection

Other Normal work clothing (long sleeved shirts and long pants) is recommended.

Respiratory protection In case of accident and/or inadequate ventilation, use respiratory protection with organic vapor

cartridge.

Thermal hazards Not applicable.

General hygiene considerations

Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective

equipment to remove contaminants.

9. Physical and chemical properties

Appearance

Physical state Liquid. **Form** Liquid. Color White.

Sweet, pungent. Odor **Odor threshold** Not available.

Property has not been measured.

Melting point/freezing point < -40 °F (< -40 °C) Initial boiling point and boiling 365 °F (185 °C)

range

Flash point 181.4 °F (83 °C) **Evaporation rate** Less than water. Flammability (solid, gas) Not applicable.

Upper/lower flammability or explosive limits

Explosive limit - lower (%) Property has not been measured. Explosive limit - upper (%) Property has not been measured.

RP™ II Flow Improver SDS US

937376 Version #: 10 Revision date: 20-June-2023 Issue date: 12-May-2017 Vapor pressure 1 mmHg (37.8°C)

< 1 (Air=1) Vapor density

Relative density > 0.83 - < 0.91 (25°C / 77°F)

Solubility(ies)

Solubility (water) Negligible in water.

Partition coefficient Property has not been measured.

(n-octanol/water)

Property has not been measured. **Auto-ignition temperature Decomposition temperature** Property has not been measured.

Viscosity 150 cP 511s-1 (Non-Newtonian) (25 °C)

Other information

Explosive properties Not explosive.

Kinematic viscosity Property has not been measured.

Not oxidizing. Oxidizing properties

10. Stability and reactivity

The product is stable and non-reactive under normal conditions of use, storage and transport. Reactivity

Chemical stability Material is stable under normal conditions.

Possibility of hazardous

reactions

No dangerous reaction known under conditions of normal use.

Conditions to avoid Avoid heat, sparks, open flames and other ignition sources. Avoid temperatures exceeding the

flash point. Contact with incompatible materials.

Incompatible materials Strong oxidizing agents.

Hazardous decomposition

products

Thermal decomposition or combustion may liberate carbon oxides and other toxic gases or vapors.

11. Toxicological information

Information on likely routes of exposure

Inhalation Prolonged inhalation may be harmful.

Skin contact Prolonged skin contact may cause temporary irritation.

Eye contact Causes serious eye irritation.

Ingestion May cause discomfort if swallowed.

Symptoms related to the physical, chemical and toxicological characteristics Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred

vision.

Information on toxicological effects

Acute toxicity Not expected to be acutely toxic.

Components **Species Test Results**

Propane -1,2 -diol (CAS 57-55-6)

Acute

Dermal

LD50 Rabbit 20800 mg/kg

Oral

LD50 Rat 22000 mg/kg

Skin corrosion/irritation Prolonged skin contact may cause temporary irritation.

Corrosivity

RP™ II Flow Improver **OECD 404**

Result: Very slight irritant

Species: Rabbit

Serious eye damage/eye

irritation

Causes serious eye irritation.

RP™ II Flow Improver 4/8

937376 Version #: 10 Revision date: 20-June-2023 Issue date: 12-May-2017 Respiratory or skin sensitization

Respiratory sensitization No information available on the mixture. However, none of the components are classified in

respect of this hazard (or are present at a level below the concentration threshold for

classification).

Skin sensitization No information available on the mixture. However, none of the components are classified in

respect of this hazard (or are present at a level below the concentration threshold for

classification).

Germ cell mutagenicity No information available on the mixture. However, none of the components are classified in

respect of this hazard (or are present at a level below the concentration threshold for

classification).

Carcinogenicity No information available on the mixture. However, none of the components are classified in

respect of this hazard (or are present at a level below the concentration threshold for

classification).

IARC Monographs. Overall Evaluation of Carcinogenicity

Not listed.

NTP Report on Carcinogens

Not listed.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1053)

Not listed.

Reproductive toxicityNo information available on the mixture. However, none of the components are classified in

respect of this hazard (or are present at a level below the concentration threshold for

classification).

Specific target organ toxicity -

single exposure

No information available on the mixture. However, none of the components are classified in respect of this hazard (or are present at a level below the concentration threshold for

classification).

Specific target organ toxicity -

repeated exposure

No information available on the mixture. However, none of the components are classified in

respect of this hazard (or are present at a level below the concentration threshold for

classification).

Aspiration hazard Not an aspiration hazard.

Chronic effects None known.

Further information None known.

12. Ecological information

Crustacea

Fish

Ecotoxicity Harmful to aquatic life with long lasting effects.

COLOXICILY	Hallilla	Hamila to aquate life with long lasting cheets.		
Components		Species	Test Results	
Alcohols, C7-9-iso-, C	8-rich (CAS 68526-	83-0)		
Aquatic				
Acute				
Algae	ErC50	Pseudokirchnerella subcapitata	23 mg/l, 72 h	
Crustacea	LC50	Daphnia magna	31.8 mg/l, 48 h	
Fish	LC50	Pimephales promelas	14 mg/l, 96 h	
Chronic

Algae	EC50	Selenastrum capricornutum	19000 mg/l, 72 hours	

Persistence and degradability No data is available on the degradability of this product.

RP™ II Flow Improver

Ceriodaphnia

Pimephales promelas

LC50

LC50

18340 mg/l, 48 hours

46500 mg/l, 96 hours

Bioaccumulative potentialThe product is not expected to bioaccumulate.

Partition coefficient n-octanol / water (log Kow)

Octan-1-ol (CAS 111-87-5) 3

Mobility in soil Expected to have low mobility in soil and sediments with adsorption being the predominant

physical process.

Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation

potential, endocrine disruption, global warming potential) are expected from this component.

13. Disposal considerations

Disposal instructions Waste material from this product should not be exposed to waste streams or sumps containing

any concentration of hydrocarbon. This will cause formation of gelled substances that may plug

pipes. Collect and reclaim or dispose in sealed containers at licensed

Local disposal regulations Dispose in accordance with all applicable regulations.

Hazardous waste codeThe waste code should be assigned in discussion between the user, the producer and the waste

disposal company.

Waste from residues / unused

products

Dispose in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal

instructions).

Contaminated packaging Since emptied containers may retain product residue, follow label warnings even after container is

emptied. Empty containers should be taken to an approved waste handling site for recycling or

disposal.
