SAFETY DATA SHEET

1. Identification

GHS product identifier: LP™ 100 Flow Improver
Version No.: 03
Issue date: 19-April-2017
Revision date: 31-March-2020
Supersedes date: 01-November-2019
CAS No.: Mixture

Recommended use: Flow Improver.
Recommended Restrictions: Other uses are not recommended unless an assessment demonstrates potential exposures will be controlled.

Manufacturer:
LiquidPower Specialty Products Inc.
Address:
One BriarLake Plaza
2000 W Sam Houston Pkwy S
Suite 400
Houston, TX 77042
Telephone:
1.713.339.8703 or 1.800.897.2774
e-mail:
SDS@LiquidPower.com
Website:
www.LiquidPower.com
Emergency telephone:
+1 703.527.3887
+1 800.424.9300

2. Hazards identification

GHS classification:
- Physical hazards: Not classified.
- Health hazards: Not classified.
- Environmental hazards: Not classified.

GHS label elements:
- Signal word: None.
- Hazard symbols: None.
- Hazard statement: The mixture does not meet the criteria for classification.

Precautionary statements:
- Prevention: Observe good industrial hygiene practices.
- Response: Wash hands after handling.
- Storage: Store away from incompatible materials.
- Disposal: Dispose of waste and residues in accordance with local authority requirements.

Other hazards which do not result in classification: None known.
Supplemental information: None.

3. Composition/information on ingredients

The components are not hazardous or are below required disclosure limits.

4. First aid measures

First aid procedures:
- Inhalation: Move to fresh air. Call a physician if symptoms develop or persist.
- Skin: Wash off with soap and water. Get medical attention if irritation develops and persists.
- Eye: Rinse with water. Get medical attention if irritation develops and persists.
- Ingestion: Rinse mouth. Get medical attention if symptoms occur.

Most important symptoms and effects, both acute and delayed: Direct contact with eyes may cause temporary irritation.

Notes to physician: Treat symptomatically.
General advice

Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

5. Fire-fighting measures

Suitable extinguishing media

Water fog. Dry chemical powder. Carbon dioxide (CO2).

Unsuitable extinguishing media

Do not use water jet as an extinguisher, as this will spread the fire.

Specific hazards arising from the chemical

During fire, gases hazardous to health may be formed.

Protective equipment and precautions for firefighters

Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Protection of fire-fighters

Move containers from fire area if you can do so without risk.

6. Accidental release measures

Personal precautions

Keep unnecessary personnel away. For personal protection, see section 8 of the SDS.

Environmental precautions

Avoid discharge into drains, water courses or onto the ground.

Methods for containment

Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible.

Methods for cleaning up

Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.

7. Handling and storage

Handling

Avoid prolonged exposure. Observe good industrial hygiene practices. Ensure adequate ventilation.

Storage

Store in original tightly closed container. Store away from incompatible materials (see section 10 of the SDS).

8. Exposure controls / personal protection

Occupational exposure limits

No exposure limits noted for ingredient(s).

Recommended monitoring procedures

Follow standard monitoring procedures.

Engineering controls

Use process enclosures, local exhaust ventilation, or other engineering controls to control airborne levels below recommended exposure limits.

Personal protective equipment

Eye/face protection

Risk of contact: Wear approved safety goggles.

Skin protection

If prolonged or repeated contact is likely, chemical resistant clothing is recommended.

Respiratory protection

In case of inadequate ventilation, use respiratory protection.

Hand protection

Use suitable protective gloves if risk of skin contact. Suitable gloves can be recommended by the glove supplier.

9. Physical and chemical properties

Appearance

Physical state: Liquid.
Colour: White.
Form: Liquid.
Odour: Mild.
Odour threshold: Not available.

pH: 10 - 12.3

Melting point/freezing point: 0 °C (32 °F)

Boiling point: 100 °C (212 °F)

Flash point: Not applicable.

Evaporation rate: Same as water.

Flammability (solid, gas): Not applicable.

Flammability limits in air, lower, % by volume: Not applicable.

Flammability limits in air, upper, % by volume: Not applicable.
Vapour pressure: 23.8 mmHg (25°C)
Vapour density: < 1 (Air = 1)
Relative density: 0.84 - 0.97 (15.6°C)
Solubility: Disperses completely.
Partition coefficient (n-octanol/water): Not available.
Auto-ignition temperature: Not available.
Decomposition temperature: Not available.
Viscosity: 50-200 cP 511s-1 (Non-Newtonian) (25°C)

10. Stability and reactivity
Reactivity: The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability: Material is stable under normal conditions.
Possibility of hazardous reactions: No dangerous reaction known under conditions of normal use.
Conditions to avoid: Contact with incompatible materials.
Incompatible materials: Strong oxidising agents.
Hazardous decomposition products: No hazardous decomposition products are known.

11. Toxicological information
Routes of exposure: Ingestion. Skin contact. Eye contact.
Toxicological information: No adverse effects are expected.
Acute toxicity: Not expected to be acutely toxic.
Skin corrosion/irritation: No information available on the mixture. However, none of the components are classified in respect of this hazard (or are present at a level below the concentration threshold for classification).
Serious eye damage/eye irritation: No information available on the mixture. However, none of the components are classified in respect of this hazard (or are present at a level below the concentration threshold for classification).
Respiratory sensitizer: No information available on the mixture. However, none of the components are classified in respect of this hazard (or are present at a level below the concentration threshold for classification).
Skin sensitisation: No information available on the mixture. However, none of the components are classified in respect of this hazard (or are present at a level below the concentration threshold for classification).
Mutagenicity: No information available on the mixture. However, none of the components are classified in respect of this hazard (or are present at a level below the concentration threshold for classification).
Carcinogenicity: No information available on the mixture. However, none of the components are classified in respect of this hazard (or are present at a level below the concentration threshold for classification).
Reproductive toxicity: No information available on the mixture. However, none of the components are classified in respect of this hazard (or are present at a level below the concentration threshold for classification).
Specific target organ toxicity - single exposure: No information available on the mixture. However, none of the components are classified in respect of this hazard (or are present at a level below the concentration threshold for classification).
Specific target organ toxicity - repeated exposure: No information available on the mixture. However, none of the components are classified in respect of this hazard (or are present at a level below the concentration threshold for classification).
Aspiration hazard: Not an aspiration hazard.
Local effects: May irritate eyes and skin.
Chronic effects: None known.
Symptoms: Direct contact with eyes may cause temporary irritation.
Human experience: No data available.
12. Ecological information

Ecotoxicity
The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

Environmental effects
An environmental hazard cannot be excluded in the event of unprofessional handling or disposal.

Persistence and degradability
No data available.

Bioaccumulation
No data available.

Aquatic toxicity
Not classified.

Mobility
This product is miscible in water.

Other adverse effects
No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

13. Disposal considerations

Disposal methods
Waste material from this product should not be exposed to waste streams or sumps containing any concentration of hydrocarbon. This will cause formation of gelled substances that may plug pipes. Collect and reclaim or dispose in sealed containers at licensed waste disposal site.

Waste from residues / unused products
Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging
Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

14. Transport information

ADR
Not regulated as dangerous goods.

RID
Not regulated as dangerous goods.

IATA
Not regulated as dangerous goods.

IMDG
Not regulated as dangerous goods.

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code
Not established.

*A "Yes" indicates this product complies with the inventory requirements administered by the governing country(s).
A "No" indicates that one or more components of the product are not listed or exempt from listing on the inventory administered by the governing country(s).
16. Other information

Disclaimer

LiquidPower Specialty Products Inc. cannot anticipate all conditions under which this information and its product, or the products of other manufacturers in combination with its product, may be used. It is the user’s responsibility to ensure safe conditions for handling, storage and disposal of the product, and to assume liability for loss, injury, damage or expense due to improper use. The information in the sheet was written based on the best knowledge and experience currently available.

List of abbreviations

LD50: Lethal Dose, 50%.
LC50: Lethal Concentration, 50%.
PBT: Persistent, bioaccumulative, toxic.
vPvB: very Persistent, very Bioaccumulative.
TWA: time weighed average.
STEL: Short term exposure limit.
TLV: Threshold Limit Value.
