1. Identification

Product identifier  LP™ 100 Flow Improver
Other means of identification  None.
Recommended use of the chemical and restrictions on use
   Recommended use  Flow Improver.
   Recommended restrictions  Other uses are not recommended unless an assessment demonstrates potential exposures will be controlled.

Manufacturer/Importer/Supplier/Distributor information

Manufacturer  LiquidPower Specialty Products Inc.
Address  One BriarLake Plaza
         2000 W Sam Houston Pkwy S
         Suite 400
         Houston, TX 77042
Telephone  1.713.339.8703 or 1.800.897.2774
E-mail  SDS@LiquidPower.com
Website  www.LiquidPower.com
Emergency telephone  +1 703.527.3887
   +1 800.424.9300
Singapore only  800-101-2201

2. Hazards identification

GHS classification
   Physical hazards  Not classified.
   Health hazards  Not classified.
   Environmental hazards  Not classified.

GHS label elements, including precautionary statements

Pictograms  None.
Signal word  None.
Hazard statements  None.
Precautionary statements
   Prevention  Observe good industrial hygiene practices.
   Response  Wash hands after handling.
   Storage  Store away from incompatible materials.
   Disposal  Dispose of waste and residues in accordance with local authority requirements.
Other hazards which do not result in classification  None known.
Supplemental information  None.

3. Composition/information on ingredients

Substance or mixture  Mixture
The components are not hazardous or are below required disclosure limits.

4. First-aid measures

Inhalation  Move to fresh air. Call a physician if symptoms develop or persist.
Skin contact  Wash off with soap and water. Get medical attention if irritation develops and persists.
Eye contact  Rinse with water. Get medical attention if irritation develops and persists.
Ingestion  Rinse mouth. Get medical attention if symptoms occur.
Most important symptoms/effects, acute and delayed  Direct contact with eyes may cause temporary irritation.
Treat symptomatically.

Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

**5. Fire-fighting measures**

**Suitable extinguishing media**
- Water fog.
- Foam.
- Dry chemical powder.
- Carbon dioxide (CO2).

**Unsuitable extinguishing media**
- Do not use water jet as an extinguisher, as this will spread the fire.

**Specific hazards arising from the chemical**
- During fire, gases hazardous to health may be formed.

**Fire fighting equipment/instructions**
- Move containers from fire area if you can do so without risk.

**Special protective equipment and precautions for firefighters**
- Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

**Specific methods**
- Use standard firefighting procedures and consider the hazards of other involved materials.

**General fire hazards**
- No unusual fire or explosion hazards noted.

**6. Accidental release measures**

**Personal precautions, protective equipment and emergency procedures**
- Keep unnecessary personnel away. For personal protection, see section 8 of the SDS.

**Environmental precautions**
- Avoid discharge into drains, water courses or onto the ground.

**Methods and materials for containment and cleaning up**
- Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.
- Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

- Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.

**7. Handling and storage**

**Precautions for safe handling**
- Avoid prolonged exposure. Ensure adequate ventilation. Observe good industrial hygiene practices.

**Conditions for safe storage, including any incompatibilities**
- Store in original tightly closed container. Store away from incompatible materials (see Section 10 of the SDS).

**8. Exposure controls/personal protection**

**Control parameters/Occupational exposure limits**
- No exposure limits noted for ingredient(s).

**Exposure guidelines**
- Follow standard monitoring procedures. No exposure standards allocated.

**Appropriate engineering control measures**
- Use process enclosures, local exhaust ventilation, or other engineering controls to control airborne levels below recommended exposure limits.

**Individual protection measures, such as personal protective equipment**

**Eye/face protection**
- Risk of contact: Wear approved safety goggles.

**Skin protection**

**Hand protection**
- Use suitable protective gloves if risk of skin contact. Suitable gloves can be recommended by the glove supplier.

**Other**
- If prolonged or repeated contact is likely, chemical resistant clothing is recommended.

**Respiratory protection**
- In case of inadequate ventilation, use respiratory protection.

**Thermal hazards**
- Wear appropriate thermal protective clothing, when necessary.

**General hygiene considerations**
- Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Discard contaminated clothing and footwear that cannot be cleaned.

**9. Physical and chemical properties**

**Appearance**
- Physical state: Liquid.
- Form: Liquid.
- Color: White.
Odor: Mild.
Odor threshold: Not available.

pH: 10 - 12.3

Melting point/freezing point: 32 °F (0 °C)
Initial boiling point and boiling range: 212 °F (100 °C)

Flash point: Not applicable.
Evaporation rate: Same as water.
Flammability (solid, gas): Not applicable.
Flammability limit - lower (%): Not applicable.
Flammability limit - upper (%): Not applicable.

Vapor pressure: 23.8 mmHg (25°C)
Vapor density: < 1 (Air=1)

Relative density: 0.84 - 0.97 (15.6°C)

Solubility(ies): Disperses completely.
Solubility (water): Not available.
Partition coefficient (n-octanol/water): Not available.
Auto-ignition temperature: Not available.
Decomposition temperature: Not available.
Viscosity: 50-200 cP 511s-1 (Non-Newtonian) (25°C)

Other data:
Explosive properties: Not explosive.
Oxidizing properties: Not oxidizing.

10. Stability and reactivity
Reactivity: The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability: Material is stable under normal conditions.
Possibility of hazardous reactions: No dangerous reaction known under conditions of normal use.
Conditions to avoid: Contact with incompatible materials.
Incompatible materials: Strong oxidizing agents.

11. Toxicological information
Information on likely routes of exposure:

Inhalation: No adverse effects due to inhalation are expected.
Skin contact: No adverse effects due to skin contact are expected.
Eye contact: Direct contact with eyes may cause temporary irritation.
Ingestion: Expected to be a low ingestion hazard.

Acute toxicity: Not expected to be acutely toxic.

Symptoms: Direct contact with eyes may cause temporary irritation.

Skin corrosion/irritation: No information available on the mixture. However, none of the components are classified in respect of this hazard (or are present at a level below the concentration threshold for classification).

Serious eye damage/eye irritation: No information available on the mixture. However, none of the components are classified in respect of this hazard (or are present at a level below the concentration threshold for classification).

Respiratory or skin sensitization:
Respiratory sensitization: No information available on the mixture. However, none of the components are classified in respect of this hazard (or are present at a level below the concentration threshold for classification).
Skin sensitization: No information available on the mixture. However, none of the components are classified in respect of this hazard (or are present at a level below the concentration threshold for classification).
Germ cell mutagenicity

No information available on the mixture. However, none of the components are classified in respect of this hazard (or are present at a level below the concentration threshold for classification).

Carcinogenicity

No information available on the mixture. However, none of the components are classified in respect of this hazard (or are present at a level below the concentration threshold for classification).

Reproductive toxicity

No information available on the mixture. However, none of the components are classified in respect of this hazard (or are present at a level below the concentration threshold for classification).

Specific target organ toxicity - single exposure

No information available on the mixture. However, none of the components are classified in respect of this hazard (or are present at a level below the concentration threshold for classification).

Specific target organ toxicity - repeated exposure

No information available on the mixture. However, none of the components are classified in respect of this hazard (or are present at a level below the concentration threshold for classification).

Aspiration hazard

Not an aspiration hazard.

Chronic effects

None known.

Relevant negative data

No data available.

Other information

None known.

12. Ecological information

Ecotoxicity

The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

Persistence and degradability

No data available.

Bioaccumulative potential

No data available.

Mobility in soil

No data available.

Other adverse effects

No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

13. Disposal considerations

Disposal methods/information

Waste material from this product should not be exposed to waste streams or sumps containing any concentration of hydrocarbon. This will cause formation of gelled substances that may plug pipes. Collect and reclaim or dispose in sealed containers at licensed waste disposal site.

Special precautions

Dispose in accordance with all applicable regulations.

14. Transport information

ADR

Not regulated as dangerous goods.

RID

Not regulated as dangerous goods.

ADN

Not regulated as dangerous goods.

IATA

Not regulated as dangerous goods.

IMDG

Not regulated as dangerous goods.

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

Not established.

15. Regulatory information

Safety, health and environmental regulations specific for the product in question

Controlled Narcotic Drugs (Misuse of Drugs Act, First Schedule, Part I, II & III)

Not regulated.

Controlled Specified Drugs (Misuse of Drugs Act, Fourth Schedule)

Not regulated.

Not regulated.

Chemical Weapons Prohibition (Act)

Not applicable.
Environmental Protection and Management (Hazardous Substances) Regulations
Not applicable.

Environmental Public Health Act
Not applicable.

International regulations

Montreal Protocol
Not applicable.

Stockholm Convention
Not applicable.

Rotterdam Convention
Not applicable.

Kyoto protocol
Not applicable.

Basel Convention
Not applicable.
